Guidance for the submission of the 2014 Electronic ARDWP

To access the electronic ARDWP on-line page, please go to the *DRINC Portal* at the following link:

<http://drinc.ca.gov/ear/>

If you are not a registered user on the DRINC Portal:

In order to ensure the integrity of the information collected, we have implemented an on-line registration process to ensure that only valid water system representatives can access the online report. To access the eARDWP online page, please go to the following link for our DRINC Portal at <http://drinc.ca.gov> and then select the Electronic Annual Report link on the left-hand side of the page or go directly to <http://drinc.ca.gov/ear/> and **Register**. You need only register once to complete reports for multiple systems for which you are responsible. Within 3 to 5 days after you have registered and the local regulatory agency: DDW District Engineer if your water system is regulated by DDW or the Local Primacy Agency (LPA) staff if your water system is regulated by the county; has reviewed your registration, you will receive an email to allow you access to start a report for your public water system(s).

If you registered last year:

If you have previously registered, you do not need to register again to begin completing the 2014 eARDWP. Simply login to the eARDWP Portal using your user name (email address) and password; then go to the **MY EAR REPORTS** tab. Each previously submitted report will have a link on this page. At the bottom of the page is a link to start the 2014 eARDWP.

If you need to add another water system to your registered list:

You must ensure you are registered for each water system for which you must submit a report. To register for a new system, you must login to the eARDWP Portal using your user name (email address) and password, then go to the **MY PROFILE** tab and add a water system from the list. Within 3 to 5 days after you have added the new water system to your list, and the local regulatory agency has reviewed your registration, you will receive an email to allow you access to start a report for that new public water system(s). You may begin creating the 2014 eARDWP for any water systems that have prior approval while you are waiting for the approval for the newly added water system.

If you forgot your password or changed email addresses:

Password: You must first login using your user name (email address). When you are at the screen requiring your password, click on the link Forgot Password?. Your password will be forwarded to your email account.

Email Address: If your email address has changed, you must re-register to create a new account with the updated email address. You should then connect the water system(s) to the new account for which you need to submit a 2014 eARDWP.

Emergency Notification Plan (ENP)

If you do not have access to the Internet and cannot complete the form online, please call your local regulatory agency to request a paper copy.

You can continue to access the **Drinking Water Systems Geographic Reporting Tool** through the eARDWP Portal website. We have previously informed you about the **Drinking Water Systems Geographic Reporting Tool**, which was launched as a public health service by the DDW in cooperation with the UC Davis Information Center for the Environment (ICE). This web-based tool is designed to produce high resolution, digital maps of drinking water system customer service areas for the entire state of California, to assist water systems in digitizing their customer service area boundaries and identifying their neighboring systems, and to create a geographic information system (GIS) layer useful for emergency preparedness, for public health prevention and response, and for public health research.

If you have not already done so, you are invited to create or edit your service area boundaries and enter them in the Drinking Water Systems Geographic Reporting Tool. You can access the Drinking Water systems Geographic Reporting Tool on the DRINC portal at <http://drinc.ca.gov>.
